

ECS Card Payment Details

The quickest way to make an ECS application is by using MyECS on the ECS card website www.ecscard.org.uk

When applying online the system automatically calculates the correct fee and prompts you to pay using a debit or credit card when your application is finalised.

For Paper applications, instructions on how to pay can be found in the application guidance notes. Please note: A £10 + VAT administration fee is payable for **ALL** paper applications. JIB member discounts are not available if the application is made using a paper application. Making an online application will avoid paying an additional administration payment.
